An Old-Timer Cured After Using Tobacco Twenty Three Years. He Gains Twenty Pounds in Thirty Days.

Lake Geneva, Wis.—[Special.]—The ladies of our beautiful little town are making it interesting for tobacco-using hysbands, since the injurious effect of tobacco and the ease with which it can be cured by No-To-Bac have been plainly demonstrated by the cure of Mr. F. C. Waite. In a written statement he says: "I smoked and chewed tobacco for twenty-three years, and ment he says: "I smoked and chewed tobacco for twenty-three years, and my case was one of the worst in this part of the country. Even after I went to bed at night, I woke up to chew or smoke. It was killing me and my wife was also ailing from the injurious effects. Two boxes of No-To-Bac cured me, and I have no more desire for tobacco than I have to jump out of the window. I have gained twenty pounds in thirty days, my wife is well, and we are indeed both happy to say that No-To-Bac is truly 'worth its weight in gold."

Mr. Waite's cure is looked upon as a miracle. It is the talk of the town and county, and over a thousand tobacco

county, and over a thousand tobacco users will use No-To-Bac. The pecu-liarity about No-To-Bac is that the makers authorize every druggist in America to absolutely guarantee three boxes to cure or refund the money, and the cost is so trilling, compared with the expensive use of tobacco, that to-bacco-using husbands have no excuse bacco-using husbands have no excuse to offer when their wives insist upon their taking No-To-Bac, gaining pure, sweet breath, new mental and physical powers and a practical revitalization of their nicotined nerves. No-To-Bac not only cures the tobacco habit but restores vitality and nerve vigor. It is indeed a miracle worker for weak men. Get our booklet, "Don't Tobacco Spit and Smoke Your Life Away." New York, May 5.—As on yesterday the stock market was one of specialities, the Industrials figuring for the bulk of the business transacted. The total sales were only 103,585 shares and in this small total Tobacco led with 15,200 shares. Leather preferred followed with 12,400 and Bay State Gas was third with 7,100 shares. Tobacco was weak throughout and under steady pressure of stock for both accounts fell from 68% to 66%,667%. Leather preferred on the other hand was firm on rather vague reports that the directors intended declaring a dividend shortly. Bay State Gas started off with a rise of 1½ per cent. to 33, fell to 31 and railied to 32½,631%. Laclede Gas and Rubber were heavy. The former broke 3% to 25% on a false rumor that the case involving the charter of the company had been decided against it. Later on a raily to 27% ensued. Rubber common dropped 1% to 23 and the preferred 3% to 160%, the announcement that expression company having induced further liquidations. Cotton Oil common and preferred were higher on the statement that the directors had declared the regular semi-annual dividend of 3 per cent, on the latter. The usually active railway list showed no change of importance although the tendency of prices was downward. London operations were insignificant, but Wall Street Review.
